

## TANAX, INC. Quality Policy

TANAX INC. recognizes the quality improvement of product service and the global environmental protection as the significant issues of management, and to meet the various needs, we build the management system for quality, environment and information and always keep promoting the interaction with those three elements (quality, environment and information) so as to pursue our clients' satisfaction.

1. The company has established its own management system based on ISO9001, ISO14001 and ISO27001 to promote environmental and safety activities, quality control and data security, including Forest Certification and Chanto-Eco.
2. We recognize the environmental aspects of our activities, product life cycles and services, as well as customer requirements, and aim to provide high value products that fulfil our corporate social responsibility through continuous improvement of our quality, environmental and information management systems.
3. In accordance with the CSR procurement policy, we follow the laws, regulations, and other requirements to which we agree regarding the company's activities.
4. Established objectives and targets for quality, environment and information to extend the scope within technical and economic possibilities, to be reviewed regularly for continual improvement.
5. We support the CDP's philosophy of requiring business to publicly disclose their climate change strategies and specific greenhouse gas non-emissions, and we are also committed to reducing our CO2 emissions.
